1. CAREER HISTORY

Research and Development: After getting DVM degree from UVAS Lahore, joined Livestock Department, Government of Khyber Pakhtunkhwa Pakistan during 1983 as Veterinary Officer (Health) and worked on semen processing, farm management, feeding and health coverage. Worked at Civil Veterinary Hospital and provided therapeutic and immunization services to the incoming animals. Worked as Senior Research Officer on Herd Health Program and registered buffalo farms for applied research and extension services; analyzed the prevailing practices of feeding, health and reproductive management, introduced good practices and organized the farmers into Sarhad Dairy Farmers Association, facilitating them for availing services of various research, development, marketing and financial institutions. Completed master and doctoral degrees and published a report on mismanaged livestock sector, losing an export potential of US\$ 20 billion at national level. The two successive Chief Ministers endorsed the Chief Minister Development Plan prepared by the author.

Academic excellence: Joined the University of Agriculture, Peshawar as full professor and served as Dean for two tenures. I have been working as HEC representative at PVMC and member of several professional bodies. Engaged in Teaching, Research and Industrial Linkage in animal health, reproduction, entrepreneurship and biorisk management; supervised PhD students 19, MPhil 84; subjects taught Reproductive Physiology; Livestock Industry; Stress Physiology; research projects completed 6; research publications in impact factor journals 53; books/chapters published 15, including a book on Reproductive Physiology published by Higher Education Commission of Pakistan.

Functionalized the UAP Univ Feed Mill under a lease arrangement through as private partner. Successfully introduced the feed at private dairy farmers in Peshawar and adjacent districts, competing with other feed manufacturers, based upon the best prices and quality. Initiated research on physiological base of animals' productivity and stress physiology/animals welfare and tailored the postgraduate studies and research and development projects into these priorities.

Motivated the faculty members and students for winning research grants to respond to the local problems and explore business and industrial aspects of livestock and poultry production.

Academia-Government-Industry/International Linkages: Dairy Science Park (Park/DSP) has been introduced as a sacred mission for welfare of people of the Region through generation of self employment and hygienic/Halal food production. The Park has been registered as a Society with the Government of KP, Pakistan and accepted by the United Nations as #UNSDGAction9671. In line with the vision of the Higher Education Commission, the business incubation concepts were integrated into postgraduate research ongoing at the Faculty, shaping up the University – Industry linkages. A biennial series of international workshops was initiated and it continued during November, 2011, 2013 and 2015, each by 450+ delegates, with 100+ technical papers and industrial exhibition. The proceedings were published online/printed and in impact factor journals. The 1st workshop focused on post-flood revival of dairy industry, the 2nd on meat potential of the region and the 3rd on entrepreneurship development for the outgoing graduates. The fourth conference was held at Selcuk University Konya, Turkey during on Nov 1-5, 2017.

Emerging industries in milk and meat processing and marketing have been provided technical and Quality Control certification support to relieve legal threats from the District Administration, who focus on price capping of milk and meat rather than quality. Meat shops established on modern lines of hygiene produce quality beef; however such facilities are raided by the government agencies on the basis of higher prices. DSP facilitates inspection of such facilities provide SOPs for quality standards and issue a certificate. Similar services are being extended to private slaughter houses and meat/milk processing centers and other emerging entrepreneurs. A road map has been prepared for developing a Hygienic/Halal meat export base. The plan is aimed at introducing good practices into livestock SMEs. The plan has been supported by the provincial Agriculture Minister, Special Assistants to Chief Minister KP on Law and Livestock. Sandia National Lab USA has been supporting DSP under a Biorisk Management Collaboration. Four consultative workshops have been held in Amsterdam, Dubai, Bangkok and Puket, participated by 43 members of DSP for curriculum development and integration of biorisk management concept into the food value chain.

Charles Sturt University (CSU) Australia: CSU was joined as Adjunct Professor during 2010 which will continue up to 2022. I outlined some of the key factors that impact on the reproductive efficiency of the Pakistani dairy buffaloes herd. It was found that under-nutrition and nutritional imbalance through feeding high protein-low energy diets suppress ovarian cyclicity. Interestingly ovarian activity is often negatively associated with insulin like growth factor 1 (IGF1) levels since this is associated with higher milk yields. Clearly nutrient partitioning is playing a role here particularly when cows and buffalo are underfed. Interestingly, mid-chain length fatty acids (C12-C14) are more prevalent in milk from crossbred (Sahiwal-Friesian crosses) than in purebred Sahiwal milk in which shorter chain saturated fatty acids prevail. I attended joint ISNH / ISRP International Conference-2014 at Canberra and present paper on productivity and fertility of crossbred cattle in the subtropical environment of Peshawar Pakistan. Pak-Australia Dairy Project was assisted and supervised students research at Peshawar, regarding reproductive biotechnology and women in development. Australian Farming System was studied; visits were made to the farms and clinics and farmers meetings were attended at Charles Sturt University, Wagga Wagga, in collaboration with Prof Peter Wynn. The main problem identified was the difficulty of farmers in getting technical and marketing services; summer stress faced by the animals; and scarcity of labours due to migration of the younger generations from rural to urban areas.

Policy development/reforms plan: The Ex-Chief Minister KP, Mr Akram Khan Durrani approved the concept of the DSP as a development plan and recommended establishment of the University of Veterinary Innovations and Commercialization with up-gradation of the existing Faculty of AHVS, UAP establishment of additional facilities like slaughter houses, livestock markets and entrepreneurship models. The Higher Education Commission accepted the Park as a Center of Excellence. Senior Minister KP, Mr Inayatullah Khan has agreed on establishment of

DSP Board, under an Act of the Provincial Assembly, comprising Quality Control Laboratory Complex, Business Incubation Center, Halal Research Center and an Endowment Fund. His proposal for establishment of Task Force for DSP was approved by the Chief Minister. The Chief Secretary KP has declared DSP as an innovative idea. The idea of Mardan TechnoPark and Quetta TechnoPark was accepted in a meeting of relevant authorities under chairmanship of Mr Arif Yousaf, Special Assistant to Chief Minister KP and Governor Balochistan. DSP IV – 2017 Konya endorsed the concept and Konya Teknokent offered cooperation through an MoU.

2. EDUCATION

Level of Education	Name of Examination	Institution Or Board/University	Degree awarded	Marks obtained	Major Subjects
Matriculation	SSCE	BISE Pesh	1-9-1973	686/850 (80.7%)	Science
Intermediate	FSc Premed	BISE Pesh	1-9-1975	518/1100 (47.1%)	Premedical
Bachelor's	DVM	UA Faisalabad	1982	2289/3660 (63%)	Vet Science
Master's	MSc Hons	Do	1988	597/820 (72.8%)	Animal Reprod
Doctorate	PhD	Do	1998	444/620 (71.6%)	Do

3. EXPERIENCE

Post held	Organization	BPS	From	To
Veterinary Officer (Health)	Directorate of Livestock & Dairy Dev	BPS-17	7-8-1983	18-6-1990

Chairman	Livestock Mngt/Animal Health		15-5-2007	20-12-2011
Dean	FAHVS, UA Peshawar		15-4-2011	14-4-2017

4. EXPERIENCE RELATED TO STATUTORY BODIES OF UNIVERSITIES

- Convener Board of Faculty of AH&VS
- Member Syndicate UAP/Member Academic Council UAP/Member Board of AS&R UAP
- Member Board of Studies, Livestock Management, Animal Nutrition, Human Nutrition, Poultry Science, Gomal College of Veterinary Sciences, AWKU Mardan
- Member Board of Faculty of AHVS/Faculty of Nutrition Sciences
- Member of Board of Governors of IBGE
- Chairman, Character Building Society/Agric Univ Teachers Foundation/Fund Raising Committee/AUP Alumni Association/Institutional Performance Evaluation Committee UAP
- Technical Member Selection Board, UA Peshawar, GU DI Khan, AJKU Muzaffar Abad, AWKUM Mardan

5. PROFESSIONAL RECOGNITION

A. Awards

- Gold Medal 2013, Unity Human Well Wishers Council, Lahore.
- Excellence Award 2013, International Livestock, Dairy and Poultry Congress, Lahore.
- Research Productivity Award 2012. Pakistan Council for Science and Technology, Islamabad.
- Best University Teacher Award 2011 (Higher Education Commission of Pakistan)
- Millennium Lifetime Award 2009 (S Asia Publication)
- Star Award 2008 (for seniors) (S Asia Publication)

- Star Laureate 2008 (S Asia Publication)

B. Membership Of International Bodies

1. Technical Expert DAAD Research Grant Scholarships, Germany.
2. Pak-Australia Dairy Project ASLP-Livestock Board Lahore (Expert in Dairy Reproduction).
3. American Dairy Science Association, USA
4. Society for Theriogenology, USA, Active Member, 2006
5. International Society of Zoological Sciences
6. International Society for Applied Life Sciences
7. Relief International Pakistan, Focal Point for KP Universities
8. Chief Editor, Meat Science and Veterinary Public Health (MSVPH)
9. Member editorial board, Asian-Aust J Anim Sci; Pak Vet J; J Agric Sci Tech A; Reviewer, J Dairy Sci USA; Canad J Anim Sci; Pak J Zool; Indian J Dairy Sci; Tropical Anim Health Prod; J Food Sci Agric., J Immunoassay Immunochemistry. Indian J Anim Res, J Medicinal Plants Res, Turkish J Vet Anim Sci, Livestock Sci; Small Ruminants Research; J Food Chem Toxic; J Cell Anim Biol; J Anim Physiol Anim Nutr

C. Fellowship/Membership of Local Bodies

1. Chief Patron/Founder Dairy Science Park
2. Pak. Vet. Med. Council, Member executive committee/HEC representative
3. Pak. Soc. Animal Reprod. Lahore, Vice President
4. Member National Steering Committee, Nutritionist Assoc. Pak. Lahore
5. UAP, UA Faisalabad, SAU Tandojam, GU DI Khan., UVAS Lahore, Graduate/Postgrad. Examiner, 1994 onwards
6. PARC/PSF/HEC/UAF, Project Reviewer, 2003 onwards
7. Member, Provincial Advisory Committee, Ministry of Science and Technology KP
8. GoKPK, Impact assessment study
9. Sarhad Dairy Farmers Association, Advisor
10. Public Service Commission, technical member
11. Livestock trainers and consultants, member BoD/Founder
12. Member, Industrial Advisory Group, NAVTEC, Prime Minister Secretariat, Islamabad.
13. Associate Editor of Sarhad Journal of Agriculture and Journal Anim Health Prod
14. Resident editor of the Veterinary News and Views
15. Member PCST Committee for Accreditation of Halal Certification Bodies

D. Visits abroad

1. Thailand, Bangkok, March 28 to May 6, 1994: Attended 10th International Training in Swamp Buffalo Reproduction at Chulalongkorn University. Sponsor: Royal Thai Government; Bangkok, 14-18 Nov, 2016, Led biorisk management workshop, sponsored by Sandia National Labs (SNL) USA; Phuket, 17-22 March, 2017; Led senior management workshop on biorisk management, sponsored by SNL.
2. Italy, October 15 to 28, 2007: Attended 8th World buffalo congress at Caserta. Sponsor: HEC
3. Egypt: i) 27 Feb - 4 March., 2010; Attended 6th Int Conf Egyptian Soc Exp Biol, Minoufiya University, Cairo. Sponsor: HEC; ii) 1 to 6 July, 2010, Attended Int Workshop On Industrial Biotechnology. Alexandria, Egypt. Sponsor: OECD, Paris, France.
4. Saudi Arabia: Feb and July, 2010. Sights seeing and performance of Umrah on way back from Egypt. Sept 30 to Nov 10, 2014 for performance of Hajj.
5. Australia: Nov 12-Dec 24, 2010. Visiting Professor Charles Sturt University, Wagga Wagga; Sept 6-13, 2014, to attend *Joint ISNH / ISRP International Conference*, Canberra.
6. Turkey: Sept 6-16, 2012. Presented a paper and chaired session 2 of the International Conference on Applied Life Sciences at Konya. Discussed meat export from Khyber Pakhtunkhwa with the scientists at Selcuk University and industry people. Sponsor: HEC; visited Konya along with 50+

- delegates from Pakistan as Co Chair of Dairy Science Park 2017, Nov 1-5, 2017.
7. *The Netherlands*: 15-18 March, 2015. Led Working Group on Biorisk Management of DSP to attend a meeting with US counterparts and Third Int [One Health Congress](#) sponsored by the United States Department of State's Biosecurity Engagement Program and Sandia National Labs.
 8. *Dubai; May 21-25, 2016*. Led DSP delegation to attend consultative workshop on Pakistan Biorisk Curriculum Development with Sandia National Laboratories USA (sponsor)
 9. *Colombo, Sri Lanka; Sep 5-7, 2017*. Led DSP delegation to attend consultative workshop on Pakistan Biorisk Curriculum Development with Sandia National Laboratories USA (sponsor).

6. INDUSTRIALIZATION OF RESEARCH

Business Incubation:

Business incubation concepts were introduced into postgraduate research at UAP and research studies were launched like maggot meal, silk worm meal, meal worm, omega-3 enriched eggs, iron and zinc enriched eggs, quality control through drug-residues, aflatoxin levels, antibiotic resistance, herbal probiotics as growth promoters, improvement meat quality through dietary antioxidants supplementations, stress management through antioxidants, semen evaluation, breeding through artificial insemination, introduction and evaluation of rabbits for meat production. Establishment of Peshawar Meat Factory was facilitated through Dairy Science Park as a model entrepreneur in the DSP Region.

Outreach/Extension Activities

Peri-urban dairy farms were studied during doctoral thesis research and losses of Rs.1043 billion per annum were reported. The farmers were organized into Sarhad Dairy Farmers Association and linked with various development and scientific organizations. Farmers' problems were highlighted through review papers for scientific and administrative journals, conferences, internet articles and press statements. Advised two successive Chief Ministers on livestock sector and presented development plans. Livestock Investment Conference was organized in collaboration with Sarhad Chamber of Commerce and Industries on July 28, 2005. Viable enterprises are being developed through integrated networks of stakeholders including KPCCI and SMEDA, under the umbrella of the Dairy Science Park as Chief Organizer. Training programs were organized for farmers, scientists and technicians in biorisk management, good practices, entrepreneurship development, silage making and sustainable livestock and poultry farming. Sponsorship was provided by Relief International Pakistan; HUIRA, Agri-business Support Fund-USAID, SRSP and Inter-Cooperation.

20. Abdul Ghaffar Khan, 2014. Association of testicular growth with semen quality, growth pattern and docility in various cattle breeds. Major supervisor

21. Hamayun Khan, 2014. Effect of dietary supplementation of flaxseed on semen quality and production in different dairy cattle breeds under subtropical conditions. Major Supervisor.
22. Najam us Saqib, 2014. Association of changes in postpartum metabolism and stress parameters with resumption of ovarian cyclicity in exotic dairy cattle. Major Supervisor.
23. Muhammad Riaz, 2016. Relationship of aflatoxin levels with growth rate of calf under field conditions. Major Supervisor

MSc (Hons), Co-supervisor (Completed) 61

MSc Hons ongoing, Member Supervisory Committee: 21

9. RESEARCH PROJECTS

Completed

1. Principal Investigator, Improvement of Artificial Insemination Technology in Dairy Buffaloes in NWFP – Cost 0.3 million, ARF-Pak. Agric. Res. Council, Islamabad. (2001-2004) (completed)
2. Principal Investigator, Genetic Improvement of Dairy Goats in NWFP. Cost 0.2 million, CDYST- Pak. Sci. Foundation Islamabad (2004-2006). (completed)
3. Project Component Supervisor, Livestock Component, STRC Project. Cost Rs.167 million. Higher Education Commission of Pakistan, Islamabad.
4. Project In charge, Research and developments for improvement in hides and skins in NWFP (1994 to 1998).
5. Principal Investigator, Effects of season and extenders on goats's semen integrity and fertility. Cost 1.1 million, Pak. Sci. Foundation Islamabad (2007-2009).
6. Co-Principal Investigator, Reproductive characteristics of beetal male goats as influenced by the dietary supplementation of alphatocopherol. HEC Research Grant to Dr Rifatullah Khan, Assistant Professor. Rs.0.50, 2013-14.
