### Welcome to Beni Suef for Dairy Science Park 2019

Welcome to the Sixth International Conference and Industrial Exhibition on Dairy Science Park to be held on December 17-19, 2019 at Beni Suef University. Beni Suef is a city in Middle Egypt, some 115 km south of Cairo. The city is known for its linen manufacturing in the Middle Ages in the Nile Valley with archaeological and agricultural importance.

The event is continuation of the series held during November 2011, 2013 and 2015 at Peshawar, Pakistan and during November 2017 at Konya, Turkey. The four conferences focused on rehabilitation of the post-flood Dairy Sector; Halal meat export potential of the Region; entrepreneurship-based hygienic food production and; achieving food security, respectively. DSP V has been scheduled for Khartoum. The sixth event of the series is being held with the theme, "Generating Decent Employment and Exportable Surpluses across Food Value Chain".

Like other developing countries, Pakistan is rich in livestock resources valuing US \$30 billion; however, these could neither provide good economic return to producers nor quality food to consumers. Similar wastage of natural resources is being observed throughout the world. Dairy Science Park addressed these issues through technical and marketing interventions. The model has got some notable achievements accepted by the United Nations as #SDGAction9671 and it may prove as a model for bringing prosperity to the people of the developing nations.

We expect rich participation of people from Academia, Industry, Civil Society, Government and Development Agencies, from various parts of the World. It is hoped that this event will prove as a platform for sharing success stories and planning future strategies through Academia-Industry linkages and a union between the people from various segments of the Globe at the city of Beni Suef.

### Call for abstracts

The University of Agriculture, Peshawar-Pakistan, Beni Suef University, Beni Suef, Egypt and Dairy Science Park Society are pleased to invite you to take part in the 6<sup>th</sup> International Workshop on Dairy Science Park, which will be held at Beni Suef University, Beni Suef, Egypt on December 17<sup>th</sup> to 19<sup>th</sup>, 2019. This is an event for researchers, scholars, engineers, resources managers, students, policy-makers, and all those interested in academia industry linkages, with special focus on entrepreneurship development and biorisk management in livestock, poultry, crops and horticulture based food value chain. The workshop provides an excellent

opportunity to network with colleagues worldwide to share knowledge and experience on teaching and research in agricultural area.

### Scope of the workshop

Dairy Science Park (DSP) has emerged at the University of Agriculture, Peshawar as a platform to engage the youth in productive economic activities through applied research and industrial linkages. Technological gaps between various regions of the World, success stories, entrepreneurship development, quality control protocols, traceability of food products and Biorisk Management concerns need to be addressed. Industrialization and commercialization of indigenous natural resources for the purpose of access of the people to quality certified foods and generation of self employment for the youth, are required.
